# **Special Issue**

# Mobility in Transition – Providing Innovative and Sustainable Solutions for Transport and Traffic in a Dynamic Global Environment from a Transdisciplinary Perspective

# Message from the Guest Editors

This Special Issue is just as open to findings from basic research as it is to specific case studies. Contributions from various disciplines are welcome—from STEM disciplines as well as from economics and social sciences. The following are listed here as examples:

- Transport and Traffic Sciences:
- Engineering;
- (Behavioral) Economics;
- Psychology; and
- Media and Communication Studies.

Special emphasis will be placed on transdisciplinary perspectives that deal with applied issues in integrative approaches, amalgamating methods from different disciplines. This Special Issue, entitled "Mobility in Transition", aims to report on current results and research approaches with regard to the further development of technical and organizational ideas for future-oriented mobility, thereby contributing to a more efficient mobility of goods and people that is better for the environment, stakeholders, and future generations. Mobility-related issues will be addressed on the basis of clearly described research methods. Original works from various disciplines involved in the research areas described above are welcome, ideally pursuing a transdisciplinary approach.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
