Monitor of Organic Pollutants in Environment

Message from the Guest Editors

The continuous discharge of diverse organic pollutants in the environment is of great concern to the whole world and there is a growing need to monitor their environmental occurrence. The Special Issue, entitled Monitor of Organic Pollutants in Environment, is dedicated to the advancement of monitoring, sampling, and analyzing organic pollutions in the environment, and to understand the occurrence and behaviors of organic pollutants. Submissions of scientific papers that deal with organic pollutants monitoring, including behaviors of organic pollutants in the environment, sampling techniques, and analysis methods, are welcome in this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
