

## Special Issue

# Emerging Methods and Techniques for the Evaluation and Monitoring of Emerging Contaminants in Food and Environment

### Message from the Guest Editors

Emerging contaminants such as toxic metals, trace elements, microplastics, and bacteria, among others, may be present in the environment or food, posing a risk for human health or causing severe damage to the environment. Human activities have increased the presence of certain contaminants that pose a risk for humans and the environment. It is necessary to carry out studies about efficient methodology and techniques for the evaluation of such contaminants.

Therefore, it is my pleasure to invite you to contribute to this Special Issue by submitting papers on original research or reviews. The following topics are especially welcome: innovations/developments in techniques/methods, agrochemical residues and pesticides, natural toxins, allergens, toxic compounds produced during food processing, environmental contaminants, pesticides, veterinary drug residues, toxic metals, trace elements, pollutants, emerging issues and hazards, exposure studies, risk-assessment studies, managing strategies in food safety, regulatory frameworks, and adverse impacts on both public health and the economy.

### Guest Editors

Dr. Soraya Paz Montelongo

Toxicology Department, Universidad de La Laguna, 38071 La Laguna, Santa Cruz De Tenerife, Spain

Prof. Dr. Arturo Hardisson

Grupo Interuniversitario de Toxicología Ambiental y Seguridad de los Alimentos y Medicamentos, Facultad de Medicina, Universidad de La Laguna (ULL), 38071 Santa Cruz de Tenerife, Spain

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,  
Columbus, OH 43210, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
