

## Special Issue

# Multi-criteria Decision Making and Sustainable Transport

### Message from the Guest Editors

This Special Issue will consist of papers applying multi-criteria decision-making methodologies for evaluating and selecting the best solution for solving transport complex issues (quality issues, safety issues, behavior issues, survey design issues). In this Special Issue, we invite papers related to all transport sectors which utilize multi-criteria decision making as a methodology (AHP/ANP; BWM; TOPSIS; DEMATEL; PROMETHEE; ELECTRE and MABAC). The adopted outcomes can provide sustainable and efficient solutions for transport future strategic plans.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
