

Special Issue

Advanced Technologies in Digital and Sustainable Transformation of Teaching and Learning

Message from the Guest Editor

This issue aims to compile and examine novel research in the field of emerging technologies, such as meta-reality, augmented reality (AR), virtual reality (VR), artificial intelligence (AI), and STEAM pedagogies, and their role in enabling sustainable educational transformations. We are particularly interested in, but not limited to, manuscripts that delve into the following themes:

- The role of AI in reshaping teaching and learning environments.
- Exploration of AR and VR in immersive learning.
- STEAM pedagogies and their contribution towards sustainable education.
- Digital transformation and its influence on curriculum design and delivery.
- Sustainable strategies for implementing advanced technologies in classroom settings.
- Entrepreneurship education as a catalyst for educational innovation, social innovation, and sustainable education.

We are seeking original research articles, case studies, and review papers that contribute to these themes. By contributing to this Special Issue, authors will be aiding in the identification and understanding of how advanced technologies can drive sustainable transformations in teaching and learning.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
