Progress in Climate-Adaptive Sustainable Energy and Materials

Message from the Guest Editors

This Special Issue, titled "Progress in Climate-Adaptive Sustainable Energy and Materials," aims to provide a platform for exploring the latest innovations and interdisciplinary approaches in this vital field. The topics align closely with the journal's scope by emphasizing the development, implementation, and evaluation of sustainable practices and technologies that address climate adaptability. We invite researchers and practitioners to share their groundbreaking work, fostering a deeper understanding of how energy and material systems can contribute to a more sustainable and climate-resilient future. In this Special Issue, original research articles and reviews are welcome. We aim to highlight cutting-edge studies and comprehensive reviews that advance our understanding and application of climate-adaptive sustainable energy and materials. We look forward to receiving your contributions. Prof. Dr./, Yuan Guo, Xiong (Bill) Yu
