New Challenges in Sustainable Finance

Message from the Guest Editors

Sustainable finance as an area of research is relatively new. This interest began after the 2008 economic crisis when criticism of the dominant liberal growth-oriented economic system arose. Previously, finance was a tool to support the implementation of the concept of maximizing profit, generating negative environmental and social externalities. The preceding economic model, derived from neoclassical economy, is turning towards a model supporting sustainable development, a green low-carbon economy, and adaptation to climate change. We are, therefore, witnessing a multilevel transformation of the economic, technological, and social systems towards a more environmentally sustainable and socially just model. We are moving towards a new resource-efficient economy based on technological and social innovation. The guest editors invite researchers from academia, business, and other stakeholders to submit both theoretical and applied research papers in the area of sustainable finance.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
