

Special Issue

Inter-urban Zero-Emission Rail Technology: Analyses of Emerging Passenger and Freight Transportation System Retrofits

Message from the Guest Editors

The scope of this Special Issue relates to sustainable, inter-urban passenger and freight rail innovations that can help retrofit our rural and semi-rural regions with de-carbonized, safe, equitable, and affordable mobility. Its purpose is to share leading research and case studies of climate-friendly rail transport system analyses for the benefit of engineers, planners, researchers, and decision-makers, seeking a sustainable quality of life for all. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
