Special Issue

Urban Resilience and Sustainable Construction Under Disaster Risk

Message from the Guest Editors

This Special Issue aims to gather contributions focused on innovative approaches and methods to mitigate the risk of repetitive damage from earthquakes, floods, hurricanes, or other natural hazards to buildings and critical infrastructures in the face of future disasters. This aligns with the 2030 Agenda for Sustainable Development, which seeks to endorse resilient and sustainable strategies for prevention, mitigation, and adaptation to disaster risks.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
