

## Special Issue

# Process Innovation, Logistics Optimization and Sustainable Manufacturing

### Message from the Guest Editors

This Special Issue delves into the interconnected fields of process innovation, logistics optimization, and sustainable manufacturing, highlighting their critical roles in shaping future industrial strategies.

This issue seeks research on how educational institutions can play a pivotal role in designing new logistics systems, fostering collaborations that enable the development of cutting-edge logistics tools, and equipping students with the skills necessary for managing future logistics challenges. Submissions focusing on the role of academia-industry partnerships in developing innovative process designs, and educational frameworks that train the next generation of engineers and designers, are welcome.

Special attention is given to industry–education collaborations that foster sustainable practices and innovative designs in manufacturing systems. Papers that highlight innovative solutions in green design, sustainable materials, and manufacturing education programs that promote sustainability are encouraged.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
