

Special Issue

Network Operations and Supply Chain Management

Message from the Guest Editors

Since the conception of supply chain management (SCM) in the early 1980s, this concept has evolved from a business consultancy product to an area of research and education at business schools worldwide. This Special Issue seeks to enhance how sustainable supply operations are achieved in the context of networked organizations. Network operations encompass here both managerial and the production of services and goods in all sectors of society. We invite papers that are based on conceptual, systematic literature reviews, and empirical research in the form of case studies and surveys. We will accept submissions that use other methodologies for the review process. We are interested in submissions that contribute to developing conceptual frameworks, insightful reviews, and empirical findings on any theme/topic in relation to sustainable supply as a networked and therefore complex phenomenon, an ecosystem.

Guest Editors

Prof. Dr. Per Engelseth

Dr. Richard Glavee-Geo

Dr. Godfrey Mugurusi

Dr. Umar Burki

Prof. Dr. Robert Dahlstrom

Dr. Fahad Awaleh

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
