

## Special Issue

# Emerging Research in Intelligent New Energy Vehicles

### Message from the Guest Editors

*Frontiers of Intelligent New Energy Vehicles* is a special issue of **Sustainability** and provides a forum for the latest scientific and technological advances in vehicular electrification and intelligentization for promoting the formulation of next-generation smarter and cleaner transportation systems, especially at present energy saving and carbon reduction are gaining more attention than ever. This special issue focuses on onboard energy storage technologies/devices, advanced propulsion systems for new energy vehicles (NEVs), analysis and optimization of energy conversion processes in new energy vehicles, and connected/automated vehicle technologies.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
