# New Evidences of Indoor Thermal Comfort in Residential and Tertiary Buildings: Design and Evaluation Methods

### Message from the Guest Editors

From the original attention on residential buildings, thermal comfort-related issues are increasingly also involving tertiary buildings, since people tend to spend an increasing amount of time on such premises. High-quality papers addressing the indoor thermal comfort issues are solicited, with particular interest in theoretical and experimental analysis with the aim of providing new methods, new indicators, or new data useful for the evaluation and the achievement of indoor thermal comfort.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
