

Special Issue

The Nexus between Information and Communication Technologies (ICT) and Sustainability: The Current Digital Bet

Message from the Guest Editors

This Special Issue aims at clarifying how ICT may be leveraged for enhancing the sustainability of firms and society from heterogeneous perspectives, such as environmental, financial, social, and political. Furthermore, by considering a technological standpoint, it purports to explore how to assess, analyze, and improve the sustainability of the ICT solutions, and of further digital developments. Thereby, it investigates the "Sustainability by ICT" and "Sustainability in ICT" concepts, potentially integrating the corresponding scientific literature streams. Topics of interest include, but are not limited, to the following:

- Sustainability of energy-intensive ICT, such as distributed ledger technologies and Blockchain (including cryptocurrencies);
- Sustainable supply chain management (SSCM) supported by advanced digital technologies;
- ICT in sustainable smart ecosystems (g., smart cities);
- Sustainability and Industry 4.0 digital technologies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
