

Special Issue

Noise Pollution Management

Message from the Guest Editor

This Special Issue on “Noise Pollution Management” promotes a space for the publication of scientific research that focuses on noise pollution in different types of environments and proposes different types of solutions to address the problem. Researchers are invited to submit original papers that discuss the following topics: noise pollution in urban and natural areas; measurements and strategic maps for the assessment of environmental noise; action plans for the mitigation of noise impact; acoustic solutions for environmental noise pollution based on sustainable materials, urban planning, and design of transport infrastructure in the management of noise pollution; and underwater noise impact in natural areas.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
