

## Special Issue

# Securing Our Future with Sustainable Food Technologies

### Message from the Guest Editor

This Special Issue aims to publish high-quality original research and review articles related to a wide range of sustainability topics in food technology. For example, agro-industrial wastes and plant by-products to extract and characterize natural hydrocolloids capable of showing health benefits, nutritive values or technological functions comparable to animal hydrocolloids. Another trend is the change of chemical food additives with natural plant secondary metabolites extracted from fruit and vegetable processing waste. This Special Issue is interested in green extraction and purification methods, as well as innovative food applications of natural hydrocolloids and secondary plant metabolites. Another important topic is the development of plant alternatives to animal-sourced food. The biopreservation achieved through the use of antimicrobial enzymes, fermentation etc. in food preservation instead of chemical preservatives is also a hot topic. We look forward for your submissions, Prof. Dr. Ahmet Yemenicioğlu

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
