

Special Issue

Surfactants and Biosurfactants in Sustainable Environment Treatment: Advances, Applications, and Environmental Impacts

Message from the Guest Editors

Due to their extensive applications, the consumption of surfactants is enormous, which contributing to an increasingly serious environmental problem. The aim of the Special Issue is to present the latest achievements and research on the use of functional surfactants and biosurfactants in industry, everyday life and the natural environment, paying special attention to the role of surfactants in improving the properties of the natural environment. Papers dealing with the biodegradability of different groups of surfactants in the environment and their sustainable applications are especially welcome.

Research areas may include (but are not limited to) the following:

- Biodegradability of surfactants;
- Surfactants and biosurfactants in water treatment;
- Biopolymers;
- Adsorption and aggregation properties of surfactants;
- Wetting properties of natural surfactants;
- Special surfactants in industry and environment treatment;
- Detection of surfactants in natural environment.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
