

Special Issue

Biodiversity, Conservation Biology and Sustainability

Message from the Guest Editor

For this SI, original research articles and reviews are welcome. Research areas may include (but are not limited to) broad themes that see biodiversity as a scientific thread. Contributions that look at plant biodiversity on the ecological level in both mountain and lowland spaces are welcome, as are contributions related to the economic, environmental, and social role of biodiversity of agricultural interest, both of plants and animals. Scientific contributions aimed at the chemical, nutritional and nutraceutical characterization of genetic resources will also be appreciated, with particular regard to processes for the enhancement of species, ecotypes, varieties, microorganisms, and breeds that are underutilized or at risk of genetic erosion/extinction. This Special Issue invites the international scientific community to contribute to aggregating knowledge and new methodological acquisitions but also to represent a model for initiating project collaborations.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
