

Special Issue

Sustainable Approaches for Plant Conservation under Emerging Pollutants Volume II

Message from the Guest Editors

The present Special Issue will focus on the integrated novel approaches (biological, physical, and chemical) used for plant conservation under emerging pollutants. The Special Issue will also include studies involving the mechanistic elucidation of approaches used to cope with these stresses and under natural conditions. Co-contamination is a recent emerging issue which needs special attention. Reports on sustainable integrated approaches involving the abatement of co-contamination are also of interest for this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
