

## Special Issue

# Sustainable Road Construction and Maintenance and Disaster Prevention

### Message from the Guest Editors

With the continuous improvement of infrastructure and the frequent occurrence of natural disasters, the development of highway transportation needs to accelerate its transformation from "incremental expansion" to a new stage of productive force development characterized by "quality improvement and efficiency enhancement". The purpose of this call for papers is to exchange recent scientific results related to highway and infrastructure design, construction, and maintenance.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
