

Special Issue

Plant Biology and Ecophysiology for the Environment and Sustainability

Message from the Guest Editors

This Special Issue aims to deliver ground-breaking approaches and strategies to promote environmental resilience and global sustainability through the exploitation of plant resources, from molecular to ecosystem scales (e.g., genetics, ecophysiology, biochemistry, microbiology, and systems biology). We welcome original research articles, review articles, perspectives, opinions, and methodological articles focusing on the use of plants as a holistic tool to tackle UN's SDGs. Topics of interest include the contribution of plant biology and ecophysiology to:

- Feedstock provision and food security;
- Lower inputs and improved nutrient and water use efficiency;
- Soil quality, air quality and environmental remediation;
- Resilience to pests and diseases;
- Climate change adaptation;
- Global sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
