Micro- and Nano-Scale Plastic Contamination and Environmental Remediation

Message from the Guest Editors

We cordially invite you to submit your work to a Special Issue of *Sustainability* on “Micro- and Nano-Scale Plastic Contamination and Environmental Remediation”. All aspects of MP and NP contamination and the management strategies for environmental remediation will be covered in this Special Issue, including but not limited to the following:

- MP and NP detection methods;
- Adsorption, uptake, and toxicity of MPs and NPs;
- MP- and NP-induced cellular toxicity in mammals;
- MPs and NPs in aquatic environments;
- MPs and NPs in water treatment plants;
- MP and NP contamination in the food chain;
- Fragmentation, distribution, degradation, and impacts of MPs and NPs on the environment;
- Human and environmental health risks of MP and NP pollution;
- Transport of MPs and NPs on soil.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
