

Special Issue

Sustainable Organic Agriculture and Food Supply Chains

Message from the Guest Editor

Specific areas of interest therefore include but are not limited to the following:

- Theoretical framework for the analysis of sustainability in OAASC;
- Approaches to measure and assess sustainability in OAASC;
- Economic and financial sustainability of OAASC;
- Ecosystem services and OAASC: classification, measurement, and comparison with alternative farming systems;
- Sustainability of organic livestock production in terms of use of soil and natural resources, profitability, and carbon emissions;
- Sustainability along the supply chain for organic products, including social and economic equity, and environmental issues related to processing and/or distribution;
- Consumers' attitude toward sustainable food products and effectiveness of organic labeling;
- Certification;
- Innovation in organic systems to enforce sustainability: organic seed development, breeding traits selection, precision farming, innovative technical means, etc.;
- Social sustainability and inclusivity in OAASC;
- Sustainability in the context of the international trade of organic products.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
