

Special Issue

Sustainability in Organizational Values and Public Administration

Message from the Guest Editor

Organizational values (public and private)  have a significant impact on the attitudes and behaviours, practices, policies and structures. They not only serve as a guide for strategic decisions, they also allow organizations to operate in a way efficient. Nevertheless, it's of extreme importance to highlight that this practices, policies, structures and decisions must be in a state of harmony with an important principle: the sustainability of organizations.

This Special Issue will embrace an assortment of papers presenting original, innovative and scientific contributions to the academy, aiming answer the following question: How do public and private values influence the sustainability of public organizations?
