

## Special Issue

# Overtourism Impacts, Climate Change and Global Warming on Islands

### Message from the Guest Editors

Local growth and development are increasingly dependent on the tourism sector, especially in fragile contexts, such as islands, which often have a growth pattern very dissimilar to that of the mainland, and have economies almost totally based on tourism and connected activities. However, tourism can bring development and growth, as well as negative effects on the local environment and residents. Thus, a sustainable development approach based on quantitative and qualitative indicators needs to be considered, as well as a wide awareness about the need to preserve and valorize local resources and the right cooperative strategies among tourism industry operators. However, we also need to consider the heavy effects of climate change and global warming, which have huge potential implications for travel and tourism. We encourage researchers to highlight the advances, best practices, questions, and any other issue related to this topic in order to encourage a fruitful scientific debate and exchange.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
