

Special Issue

Emerging Sustainable Materials for Environmental Engineering

Message from the Guest Editors

The objective of this Special Issue entitled "Emerging Sustainable Materials for Environmental Engineering" is to collect and publish the latest research results aimed at overcoming environmental concerns using materials science and engineering for sustainability, combining new advances and research results in the field of advanced materials engineering and technology.

Original research on luminescent materials for medical imaging, energy storage, and conversion systems will also be considered. Original research papers and reviews are welcome. Research areas may include (but are not limited to) the following:

- Preparation and characterization of sustainable materials;
- Recycling and waste management of materials;
- Wastewater treatment;
- Environmental applications of green materials;
- The life cycle of emerging materials;
- Materials for energy production, storage, and conversion;
- Emerging materials for oil and gas;
- Sustainability and the environment;
- Luminescent materials for medical imaging;

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
