Special Issue

Pavement Materials and Sustainability

Message from the Guest Editors

During the last several decades, the need to preserve natural resources and meet sustainable targets, such as those established in the Paris Agreement, has led us to pay more attention to the inclusion of sustainable criteria in all engineering projects. The road pavement industry has a great impact on the three pillars of sustainability (environment, economy, and society). Thus, this special issue entitled "Pavement Materials and Sustainability" aims to publish the latest, original and innovative research developed in the field of pavement materials with special emphasis in sustainability aspects. We encourage authors to submit their research focused on the development of more sustainable materials for pavements, and their life cycle assessment (LCA), life cycle cost analysis (LCCA), and/or any sustainability assessments. Papers including research related to pavement materials and sustainability, considering project design, construction, manufacturing and maintenance techniques are also welcome. Dr. Mayca Rubio

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
