

## Special Issue

# Evolving Indigenous Nations and Communities: Sustainable Territories and Social Ecology in a Changing Geopolitical Context

### Message from the Guest Editors

This Special Issue is interested in interdisciplinary, cross-disciplinary, intercultural, multi-methods contributions that focus on issues at the intersection of environmental sustainability, society, Indigenous Peoples and First Nations, and policy. We are particularly interested in contributions that address indigenous science as a knowledge system akin to Western science, action, and experience related to sustainability, and/or collaborative representations of modern indigenous issues. Growing pressures for land use change, effects of climate change, and other socio-environmental changes are shifting indigenous and sustainability realities drastically by introducing new threats and opportunities. Multilevel governance mechanisms are changing, increasingly pushing for (insufficient) funding localization, impacting indigenous decision-making, politics, economies and power dynamics. We welcome contributions that address current trends in the environmental management of indigenous territories, nations, and communities from all geographical areas where indigenous peoples live and work. We welcome research articles (preferred), conceptual articles, review articles, and commentaries.

### Guest Editors

Dr. Aoife Bennett

1. School of Geography and the Environment, Environmental Change Institute, Oxford University, Oxford OX1 2JD, UK
2. Instituto de Estudios Peruanos, Horacio Urteaga 694, Jesús María, Lima, Peru

Dr. Deborah Delgado Pugley

Social Science Department, Sociology Division, Pontificia Universidad Católica del Perú, Lima, Peru

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
