

Special Issue

Global Economies and Markets

Message from the Guest Editors

This Special Issue of Sustainability seeks to disseminate the latest findings in, and implications of, all areas specifically related to global economies and markets. Topics of interest around global economies and markets include artificial intelligence, circular economy, shadow economy, debt, development, foreign investment, governability, sustainability, trade, and other global economy issues relevant for achieving a sustainable world. In this Special Issue, original research articles that focus on challenging and debatable issues in the field are welcome. Research areas may include (but are not limited to) the following: -Poverty; -Income concentration; -Global warming and climate change; -Clean and green technologies; -Supply chain bottlenecks; -Multinational enterprises; -International finance and trade; -Sustainable development goals. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
