

Special Issue

Payment for Ecosystem Services, Environmental Taxation and Environmental Management: Cases from Evidence Based Policy Making and Global to Local Benefit Sharing Schemes

Message from the Guest Editors

It is our pleasure to invite researchers in the fields of rural development, environmental economics, agriculture and forestry sciences, urban/agricultural planning, and ecology with a multidisciplinary approach to submit papers to this Special Issue. We welcome submissions on sustainable management of consumption and production of forest and agricultural resources. The theoretical topics will include payment for ecosystem services (PES), environmental taxation, forest transition, pollution removal, valuations, relational values for communities, and benefit sharing schemes, such as geographical indications (GIs) and environmental taxation in the tourism sectors. Furthermore, we include in the scope rural areas and urban areas, where different types of policies and actions for sustainable resource management are implemented. For further reading, please visit the [Special Issue website](#).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
