

## Special Issue

# Physical Activity and Behavior: Training and Education Models for Sustainable Health and Performance

### Message from the Guest Editors

The purpose of this Special Issue is to publish articles and reviews with particular regard to physical education, occupational health and wellbeing interventions, as well as municipal and governmental initiatives and policies. Underlying physiological mechanisms in the fields of sport, exercise, and physical activity are also welcome.

We look forward to receiving contributions related but not limited to the following topics:

- (i) experimental studies and interventions using physical education in various settings;
- (ii) observational analytical studies identifying the effects of practicing sport and exercise on psychophysical health, quality of life, and physical performance;
- (iii) systematic reviews and meta-analyses that may summarize the evidence about the effects of sport, exercise, and physical activity on health, mental health, and overall wellbeing.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
