Recycling and Sustainability of Plastics

Message from the Guest Editors

The sustainability of plastics as a material is more than ever a relevant topic for scientists to work upon. Plastics are often misunderstood as an 'unsustainable' material because of the very real littering issue in which they feature.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
