

## Special Issue

# Adaptive Policymaking for Sustainable Transport and Mobility

### Message from the Guest Editors

Sustainable transport system development has become a central objective of many policymakers worldwide—i.e., sustainable transport and mobility in terms of its environmental, economic, and social dimensions. The building of new transport infrastructure alone will not be able to achieve this objective.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
