

## Special Issue

# Population Dynamics in the Changing Climate Systems

### Message from the Guest Editors

For this Special Issue, we encourage papers that focus on either (i) population/demographic impacts on environment/energy or (ii) the consequences of environmental changes on population. The level of analysis could be local, national, regional, or global, and methods employed could range from case-study, comparative analysis, or statistical modeling to projections. Submissions employing multidisciplinary approaches are particularly encouraged. The key criteria are that the paper have demographic component(s)/implication(s). On the other hand, potential, novel, unsettled topics include:

- Changing household consumption patterns;
- Rural to urban migration;
- Energy poverty/access;
- Energy consumption and environmental dynamics in emerging economies;
- Demographic scenarios on the changing characteristics and vulnerability of population to climate change;
- Role of cities in the energy transformation (i.e., increased renewable energy).

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
