

## Special Issue

# Responding to Pressing Sustainability Issues through Agro-Food Policies

### Message from the Guest Editors

This Special Issue comprises a selection of papers from the EAAE Seminar on Agro-Food Policy Modelling as an Effective and Expeditious Response to Today's Urgent Issues, 9–10 September 2021, Chania, Greece. The seminar aims to bring together scholars and researchers that will exchange ideas, practices and research initiatives that cover all relevant current modeling developments to assist with policymaking decisions in agriculture and the agri-food industry in response to the urgent issues of the global economy and the subsequent prevailing societal and environmental conditions. In particular, the seminar aspires to create a forum to enhance modeling development for policy design, application and monitoring on a global scale. Papers selected for this Special Issue will be subjected to a rigorous peer-review process with the aim of a wide dissemination of valuable research results.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
