# **Special Issue**

# Pro-environmental Behaviors and Environmental Literacy for Sustainable Agriculture

## Message from the Guest Editors

Agriculture has traditionally focused on maximizing production yields and profitability, with limited consideration to the long-term consequences on the ecological systems and biodiversity. However, this has since changed with the increasing awareness of environmental issues as well as the market demand for 'greener' and more ecologically friendly farming produce. Sustainable agriculture is regarded as an important alternative farming system that seeks to ensure profitability as well as food quality and safety, while protecting the environment, Consumers' expectations for 'greener' products and agribusinesses seeking to gain a competitive advantage in the marketplace are also key drivers for sustainable agriculture. This Special Issue welcomes original research, review, and case studies that provide further insights into the understanding of environmental literacy, pro-environmental behaviors, and environmental practices for sustainable agriculture.

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
