

Special Issue

Project Intelligence and Management

Message from the Guest Editors

The applications of and research in project management and sustainable operations have grown rapidly at an exponential rate over the past decades. This Special Issue will focus on the latest advances in novel technologies applying for project development and sustainable engineering disciplines, which are too complex to be solved following a conventional approach and require the application of new techniques, analytical tools, and simulation of support for practitioners to elucidate real-world problems, thus improving the quality of an urban living environment. It will provide a platform for academicians, researchers, and engineers to share their experience and smart solutions to problems in various areas of civil engineering and project management for efficient use of available assets, limited resources, and existing infrastructure in the developing or developed cities.

Guest Editors

Prof. Dr. Jui-Sheng (Rayson) Chou

Department of Civil and Construction Engineering, National Taiwan University of Science and Technology, Taipei, Taiwan

Prof. Dr. Soonwook Kwon

IAARC Board Member, School of Civil, Architectural, and Environmental System Engineering, College of Engineering, Sungkyunkwan University Natural Science Campus 2066, Seobu-ro, Jangan-gu, Suwon-si, Gyeonggi-do, Republic of Korea

Prof. Dr. Wai Oswald Chong

Arizona State University, United States

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
