

Special Issue

On the Psychology of Sustainable Consumption

Message from the Guest Editors

This specific psychological lens, focusing on theory driven, top-down, and hypotetico-deductive approaches combined with using “tried and tested” methodologies (preferably experimental research including the use of prevalidated paradigms, tasks, and measures) aims to complement and distinguish the present issue from other work on the (promotion of) sustainable consumption, which frequently features a more phenomenological, bottom-up, and data-driven approach. Research topics may include but are not limited to the following:

- research on how personality traits may influence sustainable consumption
- the role of experienced threats in driving sustainable choices
- licensing and/or consistency effects in sustainable consumption
- the self-regulation of sustainable consumption
- impulsive vs. deliberate drivers of sustainable judgment and choice
- approach vs. avoidance-motivated drivers of (non)sustainable consumption
- social influence and persuasion approaches to promote sustainable consumption
- the role of habit and habit formation in the promotion of sustainable consumption
- nudging sustainable choices

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
