

Special Issue

Public Health and Sustainable Development: Justice, Inclusivity, and Financing for a Resilient Future

Message from the Guest Editor

This Special Issue focuses on current research and scholarship relating public health to sustainable development. Promoting human health and well-being for a sustainable future requires development to be just, equitable, and inclusive. The outbreak of COVID-19 has presented major challenges for disease control, and outbreaks from other emerging infectious diseases can be expected in the future. The resilience of health systems that can respond quickly to emerging diseases while maintaining other essential health services are critical for sustainable development in a context of human health. Indeed, sustainable development has been defined as meeting the needs of the present generation without compromising the needs of future generations. This Special Issue will supplement existing literature by exploring ways that planning and governance can be structured and strategized to produce positive health outcomes.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
