

Special Issue

Public Health Related to Climate Change

Message from the Guest Editors

This Special Issue includes new research and the latest technologies related to public health and climate change. In particular, it includes a series of documents focused on:

- Impact of climate change on health;
- Effect of climate change on healthcare infrastructure;
- Resilient hospital facilities;
- Air quality improvement;
- Advanced reliability-based maintenance;
- Educational methodologies for eco-efficiency in public health care;
- Measures of control for the sustainability for healthcare organizations;
- Control indicators for the prevention and adaptation of public health to reduce the impact of climate change;
- Urban mobility;
- Innovative and cost-effective solutions for the public health sector and activities to minimize environmental impacts and climate change;
- Low-carbon design.

This Special Issue aims to analyze the relation between public health and climate change. This issue focuses on new research and the latest technologies related to public health and climate change.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
