

## Special Issue

# Innovation in Low-Carbon Economic Growth and Sustainable Development

### Message from the Guest Editors

The imperative of reconciling economic growth with environmental sustainability has intensified in recent times. Faced with escalating challenges such as climate change, resource scarcity, and environmental degradation, countries worldwide are striving to foster innovation in low-carbon economic growth and achieve sustainable development. This underscores the critical need for research in areas related to low-carbon economies, technological advancements, and their impact on sustainable development. In the pursuit of low-carbon economic growth, nations grapple with complex issues, including carbon neutrality, emissions reduction strategies, and the establishment of resilient and sustainable economies. As we navigate this path, it becomes paramount to delve into the effectiveness and mechanisms of various measures, encompassing both institutional and technological innovations, adopted by different countries. This Special Issue aims to provide a platform for the dissemination of pioneering research findings in the field of innovation in low-carbon economic growth and sustainable development.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
