Sustainable Development in Different Fields of Tourism

Message from the Guest Editors

The 21st century has witnessed significant global events such as globalization, climate change, COVID-19, accelerated technological development, and artificial intelligence. These factors have propelled the tourism industry into a critical driver of world economic growth. Consequently, tourism profoundly impacts responsible and sustainable development across environmental, economic, social, and cultural spheres. Sustainable tourism development is crucial in enhancing local communities' well-being and ensuring the sector's long-term viability. Given that tourism influences every aspect of human life, it is imperative to comprehensively examine and analyze the various factors that can influence the sustainable development of tourism. A multidisciplinary approach is essential to shed light on the path toward sustainable tourism and its continual improvement. Therefore, scholars from diverse fields are invited to contribute their research to foster a multidisciplinary perspective on sustainable tourism.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
