

Special Issue

Circular Economy and Supply Chain Management 4.0

Message from the Guest Editors

This Special Issue seeks to contribute to the Circular Economy and Supply Chain Management 4.0 agenda by enriching scientific knowledge on using the described concepts. In this context, we invite papers on innovative technical developments, reviews, case studies, analytical, and assessment papers from different disciplines, which are relevant to all the different aspects related to the usage of Supply Chain Management 4.0 concepts for Circular Economy. Indicatively, the following CE and SCM 4.0 related topics are welcomed (but not limited) in the contributions to the present Special Issue: circularity in retail, reverse logistics, closed-loop supply chains, circularity of construction, circularity in service parts supply, refurbishing, recycling, sharing economy, traceability of materials flows, life cycle analysis, reusability–recyclability–repairability–traceability, automation and minimization of resource use, multi-mode transportation in reverse logistics. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
