

Special Issue

Quantifying Landscape for Sustainable Land Use Planning

Message from the Guest Editors

We would like to invite colleagues to submit articles about their recent research on any of the following topics but not restricted to:

- landscape analysis
- sustainable land use planning and landscape management
- landscape services
- landscape character assessment and landscape units
- landscape visibility and visual impact assessment
- quantitative approaches to landscape design
- nature-based solutions
- edible landscape and urban agriculture
- effectiveness of revitalization strategies
- environmental, ecological and social impacts of land use planning
- urban and rural landscapes' effects on individual and community health
- co-design and participatory mapping in landscape research
- applications of citizen science in landscape research and success stories with GeoWeb
- geoprocessing tools and algorithms for landscape analysis
- use of remote sensing data in landscape analysis
- the theory of landscape sustainability

Guest Editors

Dr. Szymon Chmielewski

Dr. Agnieszka Olszewska-Guizzo

Dr. Mahyar Masoudi

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
