

Special Issue

Sustainable Water Resources and Stormwater Management

Message from the Guest Editors

This Special Issue welcomes papers focusing on the latest knowledge related to water management. We welcome papers from a wide range of studies on surface and groundwater quality, quantity, monitoring, protection, and modeling. Relevant topics include, but are not limited to, the following areas:

- Water resource management in response to climate change;
- Planning, designing, operation, and the optimization of water resource systems;
- Water as the common thread connecting all sustainable development goals;
- Smart water management;
- Ecosystem-based management approaches;
- Water security, sustainability, and resilience;
- A nexus approach to water resource management;
- The integration of flood and drought disaster risk reduction strategies;
- Sustainable water management in the Anthropocene;
- Geopolitical and socio-economic aspects of water resource management;
- Stakeholder involvement in water management;
- Remote sensing, GIS, big data, and artificial intelligence applications for sustainable water management;
- Ecohydrology...

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
