

Special Issue

Design for Behavioural Change, Health, Wellbeing, and Sustainability

Message from the Guest Editors

This Special Issue aims to understand how design and design thinking can influence behavioural change and enhance health and wellbeing. We acknowledge the vital role of creative design solutions to help to promote healthy behaviour and positive emotion and wellbeing. We invite original theoretical or practical submissions and review articles from the design community that address one or more of the following topics:

- Innovations in health promotion and disease prevention;
- Design innovations for wellbeing;
- Emotion, health decision making, and health behaviour;
- Behaviour and emotion in emergency;
- Designing health behaviour change;
- Service Design for mental healthcare;
- Models and strategies, multidisciplinary approaches, methods and tools for health and wellbeing design;
- Learning through health design projects;
- Future perspectives for designing health and wellbeing.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
