

## Special Issue

# Remote Sensing and Open-Source Applications of Renewable Energies and Sustainable Management Monitoring

### Message from the Guest Editor

This Special Issue (SI) aims to provide a multidisciplinary discussion forum on recent advances in RS and GIS for REs and SM applications and to find new applications at different scales, i.e., urban, regional, national, and even continental, for planning and scenarios. *Topics of primary interest include, but are not limited to:*

- Renewable energies assessing, mapping and modeling;
- Advances in sensors for sustainable applications of remote sensing;
- Sustainability in multiplatform remote sensing;
- Geospatial data models in sustainability and management;
- Open-source and decision-making tools and GIS;
- Earth observation-based satellites and reanalysis data and datasets;
- Renewable energies and sustainable management based on machine learning models;
- Spatial planning for sustainable energy development;
- Sustainability in image processing algorithm and systems;
- Performance modelling, calibration and simulation;
- Remote sensing techniques and GIS for assessment, maps and atlases;
- Best practices, testing and case studies.

---

### Guest Editor

Dr. Meysam Majidi Nezhad

Department of Astronautical, Electrical & Energy Engineering, Sapienza University of Rome, Via Eudossiana 18, 00184 Rome, Italy

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

## Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,  
Columbus, OH 43210, USA

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
