

Special Issue

Sustainable, Resilient and Smart Mobility

Message from the Guest Editors

We are calling for papers for a Special Issue of the journal of Sustainability focusing on the research topic of Sustainable, Resilient and Smart Mobility. With the rapid development of urbanization and economic growth, we are suffering from many transport related issues (such as traffic congestion, traffic accidents, energy consumption, and exhaust emission problems) especially in metropolitan cities. Emerging technologies, such as shared mobility, self-driving technology, smart reservation, green transportation, artificial intelligence and big data analytics, provide great opportunities to reform traditional transportation planning theories and practices, and promote more sustainable, more resilient, and smarter urban transportation systems. The main objective of this special issue is to collect innovative contributions to the application of emerging transportation techniques to achieve a sustainable, resilient, and smart mobility system, especially in the post-pandemic era.

Guest Editors

Dr. Qixiu Cheng

Dr. Kai Huang

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
