# **Special Issue**

# Innovative and Environmentally-Friendly Construction Materials

# Message from the Guest Editors

The construction and building sector is a great consumer of natural resources such as wood, minerals, water and energy. The goals of sustainability in construction and buildings require that practitioners utilize available natural resources in smart and efficient ways. A recent innovation in construction and building materials has enabled the design and fabrication of more sustainable and resilient civil infrastructure. The main purpose of this Special Issue is to introduce the latest developments and advances in materials that address the global sustainability challenges in construction and buildings. Original research papers, case studies, and review papers are all welcome.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
