

Special Issue

Sustainable Utilization of Agro-Wastes ☒ Pollution Reduction and Control

Message from the Guest Editors

This Special Issue aims at disseminating information regarding sustainable and green technology concerning the recycling of agro-wastes, along with pollution reduction and control, based on the definition of mechanism and theory. For instance, research regarding in situ monitoring and measurement, composting and anaerobic digestion, land applications, high value conversion and utilization, pollution reduction and control, and other relevant topics may be involved in this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
